Endeavour United Co., Ltd.

Acquisition of Meiwa-bisou by Endeavour United

We announced today that Endeavour United III Investment Business Limited Partnership, a fund managed by Endeavour United Co., Ltd. (“EU”), has acquired Meiwa-bisou Inc. (“Meiwa-bisou”) on May 29, 2026.

Meiwa-bisou is a comprehensive renovation company engaged in large-scale repair works for multi-family residential buildings, with a strong presence in Kanagawa Prefecture and the broader Tokyo metropolitan area. Since its establishment, the company has pursued excellence in technology and quality. Supported by a large team of highly skilled engineers, the company has built one of the leading track records in large-scale repair works for public and private multi-family residential buildings.

As multi-family residential buildings constructed during Japan’s postwar economic boom continue to age, demand for large-scale repair and renovation work is increasing across Japan. Against this backdrop, we believe the company’s long-established technical expertise and rigorous quality control capabilities position it to play a vital role in supporting safe and secure living environments, while contributing to the long-term sustainability of local communities.

We will contribute to the further growth and enhancement of Meiwa-bisou’s corporate value by respecting the management philosophy cultivated by the company, supporting the further strengthening of its management foundation, and formulating and implementing growth strategies in close collaboration with its officers and employees. Through these initiatives, we aim to help sustain safe and secure living environments for local communities.
