Endeavour United Co., Ltd.

Endeavour United Raises JPY 85 Billion

We are pleased to announce that we have completed fundraising for Endeavour United IV Investment Business Limited Partnership, EU Fund Chatur, L.P. and EU Fund Quartus, L.P. (collectively, “EUF-4 Funds”), with total commitments of JPY 85 billion as of October 27, 2026.

As with the predecessor funds, EUF-4 Funds attracted support from a broad range of investors. We would like to express our sincere appreciation to all investors who subscribed to EUF-4 Funds, as well as to all parties who contributed to the formation of the funds.

Since its establishment, Endeavour United (“EU”), as a general partner, has been working to solve the challenges which small-to-medium enterprises are facing, and the social issues which various sectors or industries are struggling with. Through this journey, EU has accumulated investment expertise and experience in a wide range of industries.

EUF-4 Funds will continue EU’s established investment strategy, centered on business succession, corporate carve-outs and special situations such as turnarounds. In addition, EU will pursue strategic add-on acquisitions using existing portfolio companies as platforms (buy-and-build) more actively than ever, positioning this as one of its key growth strategies. As digitalization and the adoption of AI make business transformation increasingly imperative, EU will also focus on strengthening the operational foundations of its portfolio companies, including support for digital transformation. Through such support, EU is committed to working with its portfolio companies to solve the challenges which small-to-medium enterprises are facing, create corporate value and achieve sustainable growth.

We appreciate your continued support and encouragement.

* Endeavour United IV Investment Business Limited Partnership (Japan domestic: Endeavour United Co., Ltd. as the general partner), EU Fund Chatur, L.P. and EU Fund Quartus, L.P. (Offshore) are managed independently.
